Reservations must be made with correct date and time on the calendar and you must arrive for the reservations 30 minutes prior to time chosen for boarding.

When you reserve online and the system allows the reservation, it is automatically confirmed. Computers only know what you put in them and they have no idea where you are when you make the reservations. You must allow for arrival and boarding time and for unseen traffic situations. Reservation confirmation may not always be available because of e mail failures and/or mis-spelled e mail addresses. Again if the system allowed the reservation it is confirmed.

Please note: If you do not reserve before 5pm eastern time the day before the tour and you do not receive via email a confirmation the next day with a copy that says this is your ticket then the reservation is void and you will be required to pay at the time you arrive and the next available tour time is given to you at the time of arrival.
